## UNDERWATER SWIMMING POOL LIGHT FEATURES

### Straightforward, safe installation:

Aio does not require any specific work or **wall fittings**. The projector is mounted below the pool edge without lowering water level: a 316L stainless steel plate is directly screwed into the concrete belt and lines up with the pool's wall.

### Maximum optical performance:

With its new-generation optic lens, 100% of the light stays in the water!

Made up of 36 white or RGB LEDs, the light source focuses the beam vertically and stretches it out over the entire water surface.

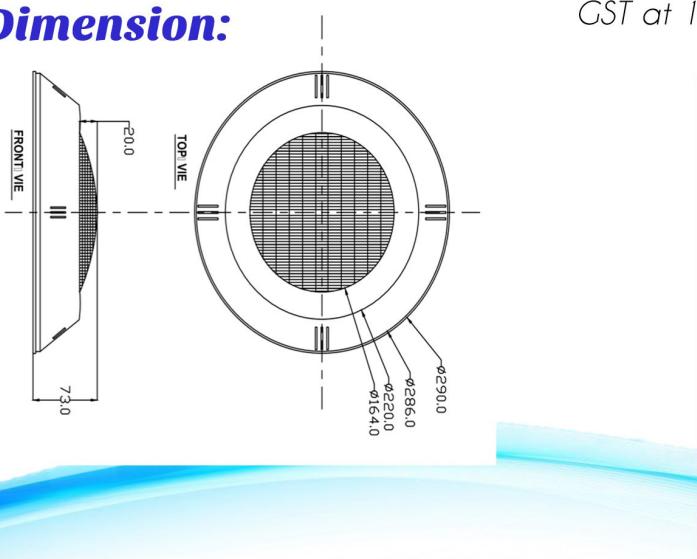

- ◆ High quality LEDs ensure good power saving, lasting brightness
- ◆ Single screw fitting due to unique clip design.
- ◆ RGB in 9 watts with remote which can set upto 16 diffrent colours.
- ◆ Appropriate driver is supplied with all LED configurations.
- ◆ Supplied with 3.5 Metre cable, 3/4" gland set of mounting screws.
- ◆ IP 68 Certified & Anti Corrosion Material.
- ◆ Fits on any vertical wall, Easy placement & installation
- ◆ Suitable for swimming pool, aquarium, fountain & etc.
